Dear Alex Famira,

Please find enclosed a Certificate of Registration issued to your company authorising the requalification of cylinders by hydrostatic retest in conjunction with a visual inspection, under specified conditions and limitations.

This Certificate is issued pursuant to your application made with Transport Canada. We have authorized you to plus cylinders. Please note that you must have both CGA publication C-5 and the procedure from Transport Canada on hand if you wish to plus. The second document is available at

<http://www.tc.gc.ca/eng/tdg/moc-cylinder-menu-363.html>

Please note that compliance with all requirements of the *Transportation of Dangerous Goods Regulations* is required. This includes compliance with the latest edition of CSA Standard B339, *Cylinders, Spheres, and Tubes for the Transportation of Dangerous Goods*, which is the 2018 edition as of the date of this Certificate. Compliance with the standards listed in clause 2 of CSA B339 is required and the editions of these standards may change with each new edition of CSA B339. It is recommended that the Certificate of Registration be displayed on or near the test equipment at all times. For its renewal, please apply at least three months before the expiry date. Should you have any questions about your registration or to request changes and amendments, please contact us at MOCRegister-RegistreContenant@tc.gc.ca.

Sincerely,

Engineering Services

Certificate of Registration

Pursuant to its application on file with Transport Canada, to the *Transportation of Dangerous Goods Regulations*, and to Clause 25 of CSA Standard B339, *Cylinders, Spheres, and Tubes for the Transportation of Dangerous Goods*,

CASP AEROSPACE INC/CASP AEROSPATIALE INC
1585 Britannia Road East
Unit E6
Mississauga, ON
L4W 2M4

is granted this Certificate of Registration for the requalification of cylinders by the hydrostatic water jacket method in conjunction with a visual inspection subject to the following conditions:

- 1) The requalifications shall be performed only at the above-mentioned location, and under the responsibility of the persons designated in the application;
- 2) The requalification shall be in accordance with Clause 24 of CSA B339, and where applicable, the terms of an Equivalency Certificate;
- 3) The maximum test pressure is 34.50 MPa (5000 psig);
- 4) In accordance with Clause 24.6.3 of CSA B339, successfully requalified cylinders shall be marked:

XX YYY ZZ *

where XX is the month of the requalification,
YYY is the requalifier's registered mark,
ZZ is the year of the requalification, and
* is the procedure symbol (★ or □), where applicable; and

- 5) Not later than 20 days after any change occurs in the information comprising the application, the Director shall be advised of any such change.

This Certificate of Registration may be suspended or revoked by the Director in the event of failure to comply with the above-mentioned conditions or with any applicable regulations.

This Certificate of Registration shall expire on the date shown below unless revoked earlier. An application for renewal of this Certificate should be submitted at least three months before the expiry date.

Registered Mark: **728**
Registration Date: 17 February 2020
Expiry Date: **01 March 2025**
